## **ABSTRACT**

The Home service maintenance is your go-to website for all things home maintenance. Designed with simplicity in mind, it's easy for homeowners to find the services they need. Built using HTML and CSS, the website connects you with skilled professionals for various tasks. The structured layout with HTML and the stylish touch of CSS ensure the website looks good and works well. Bringing together practicality and beauty, home service maintenance is here to make home maintenance a breeze for everyone. The website mainly focuses on the features of HTML and CSS only.

***Keywords: home service maintenance, go-to website, simplicity, HTML, CSS, skilled professionals***

## **ACKNOWLEDGEMENT**

From the bottom of my heart, I want to thank my teacher, Sarita Neupane. They've been with me every step of the way during this project, guiding and supporting me. Their knowledge of HTML and CSS helped me a lot, and I'm thankful for their patience and cheering me on.

# INTRODUCTION

The Home service maintenance is a website consisting of five main web pages. Here, each page is like a different webpage where you can learn about taking care of your home. Each webpage consists of three main parts: header, footer, and main section. The header and footer are the same for all the web pages but the main section is different depending on the webpage you are on where you can find different things to checkout. In this website, we have used all three types of CSS i.e. Inline, Internal, and External.

The five web pages of this website are:

- Home: The first webpage where you can get an overview.
- Services: The webpage that tells you about the services which will be provided.
- About Us: The webpage to know more about the service provider.
- Contact: The place to reach out if you need any help with your home.
- Feedback: The webpage for sharing your thoughts with the service provider.

## **CONCLUSION**

The home service maintenance website was a success. The website meets all of the requirements and is responsive, easy to use, informative, visually appealing and was completed in the set deadline.
